

Graduate Diploma Of Management (Learning)

Course Description

The Graduate Diploma of Management (Learning) focuses on developing effective leadership and management skills in educational settings. This course explores key concepts in organizational learning, instructional design, and strategic management, empowering participants to lead teams and foster a culture of continuous improvement. Through practical application and innovative strategies, students will enhance their ability to drive educational outcomes and implement effective learning initiatives within their organizations.

What will I learn?

8 Units of Competency (*3 Core Units + 5 Elective Units)

BSBLDR811*

Lead strategic transformation

Steering organizations through significant changes by identifying growth opportunities and developing strategies that align with the organization's vision. This involves engaging stakeholders, promoting adaptability, and ensuring effective communication. By leveraging data-driven insights and fostering collaboration, leaders can navigate challenges and drive sustainable change for long-term success.

BSBHRM613*

Contribute to the development of learning and development strategies

Involves assessing organizational needs, identifying skill gaps, and designing tailored training programs. This process requires collaboration with stakeholders to align with business objectives and foster a culture of continuous improvement, ultimately enhancing employee performance and supporting a skilled workforce ready for future challenges.

TAELED803*

Implement improved learning practice

Applying effective teaching strategies and innovative approaches to enhance learning outcomes, foster engagement, and support continuous development within the organization.

Be educated and feel empowered
